Bond Driving School Adaptive Driving

- Hand control evaluations for installation in your own vehicle
- We work with outside agencies for billing and assessments.
- DMV approved courses and exams available.

Bond Driving School specializes in hand control evaluations and training. We assess your mobility and include a detailed report to help you obtain the hand control devices tailored specifically for your needs.

It is Bond Driving School's aspiration to help you regain your independence by guiding you every step of the way from evaluation to the installation, to the training of your newly equipped vehicle.

All training is conducted in compliance with DMV safety regulations and the correct drive test preparedness. Experience the new found confidence as you become a fundamentally safe driver with Bond Driving School's mobility training services.
